SUMMARY

Information Security & Data Analyst with experience in risk & compliance and business/data analytics across IT consulting and enterprise environments. Skilled in **Qualys, Python, SQL, and Power BI/Tableau**, reducing exploitable risk by **30%** and improving reporting efficiency by **35%**. Translates complex data into clear dashboards and insights to support audit readiness and data-driven decision-making.

WORK EXPERIENCE

Orion Secure

Aug 2025 - Present

Information Security Analyst

Syracuse, NY

- Executed **vulnerability management** with **Qualys** and **penetration testing** via **Kaseya**, cutting exploitable risks by 30%.
- Performed risk and compliance activities**, including **audit responses** and **policy reviews**, strengthening alignment with **NIST** and **ISO 27001** frameworks and improving overall **audit readiness**.
- Managed **ServiceNow remediation** workflows, **Active Directory access audits**, and **KnowBe4 phishing reports** to support successful third-party audits.

Syracuse University

Jun 2025 - Aug 2025

Teaching Assistant

Syracuse, NY

- Delivered weekly cybersecurity lectures on **encryption, digital signatures, VPNs, HTTPS, and steganography** to 20 students, with over 95% reporting improved understanding.
- Led hands-on labs** using **Kali Linux** and **Nmap** to simulate **reconnaissance, lateral movement, and vulnerability exploitation**, enabling students to successfully complete the exercises and deepen their **practical cybersecurity skills**.

Quodeck Technologies

Nov 2023 - May 2024

Content Data Analyst

Mumbai, India

- Analyzed **250,000+ rows** of structured and semi-structured data with **Excel (including Power Query) and SQL**, uncovering insights that guided **product feature enhancements** and boosted **marketing campaign engagement**.
- Cleaned, validated, and transformed raw datasets** using **Excel functions and PivotTables**, improving **data consistency** and increasing **data usability by 30%**.
- Built four interactive dashboards in **Power BI and Tableau**, providing stakeholders with real-time insights that supported **revenue growth**, improved **customer retention**, and **enhanced A/B testing** performance.

Bethel Enterprises

Nov 2021 - Sep 2023

Data Quality Analyst

Mumbai, India

- Analyzed** sales, inventory, and **customer order data** across hardware and software products using **Excel and SQL** to **identify demand trends** and stock gaps, **reducing inventory mismatch** and **improving product availability by 20%**.
- Developed** Power BI dashboards tracking revenue, **product performance**, and **customer purchasing behavior**, enabling management to **optimize pricing and sales strategies**, improving **operational efficiency by 25%**.

TECHNICAL SKILLS

- Programming & Scripting:** Python, pandas, NumPy, scikit-learn, R, SQL
- Data Analytics & Visualization:** Advanced Excel, Pivot Tables, Power Query, Lookups, Power BI, Tableau, Google Sheets, Data Cleaning, KPI Analysis, Dashboarding, Data Modelling, Data Storytelling, A/B Testing
- Security Tools & Platforms:** Risk & Compliance, Security Controls, Policy & Risk Reporting, Qualys, Metasploitable, Kali Linux, Nmap, KnowBe4, Splunk
- Databases & Data Platforms:** Google Cloud Platform, Amazon Web Services, Microsoft Azure, Google BigQuery, ETL Pipelines
- AI Tools & Platforms:** ChatGPT (GPT-5), Claude, Gemini, GitHub, Copilot, Cursor AI, LangChain, Hugging Face, OpenAI API, RAG, Prompt Engineering, Azure AI Studio, MLflow

CERTIFICATIONS

- Google Data Analytics Professional Certificate
- IBM Ethical Hacking with Kali Linux
- IBM Exploitation and Penetration Testing with Metasploit
- Google Prompt Design in Vertex AI Skill Badge

EDUCATION

Syracuse University, School of Information Studies, Syracuse, NY

May 2026

Master of Science, Information Systems

Syracuse, NY

- Coursework:** Data Science, Business Analytics, Information Security, Applied Machine Learning

Mumbai University, Ap Shah Institute of Technology, Mumbai, Maharashtra

May 2024

Bachelor of Science, Computer Science and Cybersecurity

Mumbai, Maharashtra

- Coursework:** Cloud Computing, Computer Networks, Artificial Intelligence (AI), Operating Systems

ACADEMIC PROJECTS

US Health Insurance – Exploratory Data Analysis (EDA) | <https://github.com/selvina123/US-Health-Insurance-EDA>

Aug 2025 - Dec 2025

- Conducted **exploratory data analysis** on 1,300+ US health insurance records using **Python, Pandas, Seaborn, and Matplotlib**, identifying **smoking status** as the **#1 predictor of premium costs** and quantifying its impact on charges by over **280%**.
- Engineered **correlation heatmaps, BMI-cost scatter plots, and demographic trend visualizations** in **Jupyter Notebook**, delivering **data-backed insights** that established a foundation for **insurance risk assessment** and **pricing strategy**.

F1 Performance Analytics Dashboard | <https://github.com/selvina123/F1-Performance-Tableau-Dashboard>

Aug 2025 - Dec 2025

- Built an **F1 Performance Analytics Dashboard** in **Tableau** using **Data Blending** and **Calculated Fields** to analyze **Multi-Decade Race Data** across **Drivers, Constructors, and Circuits**, enabling clear comparison of **Team Dominance** and **Track Difficulty**.
- Delivered **BI Dashboards** visualizing **Grid-to-Finish Position Changes, DNF Trends, and Circuit Performance Patterns**, transforming **Complex Racing Data** into **Actionable Insights** for **Data-Driven Analysis**.
